Data Science and Artificial Intelligence graduate with 1 year of experience gained through multiple internships and a temporary contract role.

EDUCATION

Princess Sumaya University for Technology — Amman, Jordan
Bachelor of Data Science and Artificial Intelligence — GPA: 80.8/100 (Very Good) — Oct 2021 - Sep 2025

WORK EXPERIENCE

GWC Logistics — Ras Bo Funtas, Qatar
Junior AI Engineer — Jan, 2026 – Apr, 2026
- Built an agentic RAG-based chatbot prototype for internal knowledge retrieval.
- Resolved a 6-month bottleneck by developing an AI document parsing prototype that supports OCR and HCR.
- Developed Claude Skills workflows to automate multiple agentic internal procedures.

Optimum Partners Global — Suwayfieh, Amman, Jordan
Software and Quality Engineering Intern — Oct, 2025 – Dec, 2025
- Developed front-end components using the React.js framework, html, css, and JavaScript.

Zain — Amman, Jordan
Data Scientist Intern — July, 2025 – Sep, 2025
- Performed data analysis, data cleaning, model training, and evaluation for multiple datasets using SQL and Python Libraries.
- Tested and evaluated multiple machine learning models for a supervised status classification task.
- Built chatbots using LangChain to enable users to query and interact with processed data.

ADSTRA – AI Fintech Solutions — Amman, Jordan
Artificial Intelligence Engineer Intern — June, 2025 – Sep, 2025
- Helped improve the accuracy of an AML name similarity model.
- Worked with a team to develop a rule-based fraud detection system using SQLAlchemy.
- Built a text-to-SQL query generator by fine-tuning Llama-2-7B using QLoRA on 2,000+ domain-specific query pairs.
- Worked with a team to design and integrate a LangChain agent into a Django web application.

TECHNICAL SKILLS

Programming Languages: Python, SQL, R, JavaScript, C++, C
Data Analysis and Visualization: Pandas, NumPy, Matplotlib, Seaborn, Plotly, ggplot2, Microsoft Excel
ML and DL Frameworks: Scikit-learn, TensorFlow
Natural Language Processing and LLMs: NLTK, SpaCy, Hugging Face Transformers, Fine-Tuning
Document AI: DocLing, Unstructured, docTr
Generative AI and Agents: LangChain, Ollama, Claude
Cloud and DevOps: AWS, Azure Foundry, Docker, GitHub
Web Development: React.js, HTML, CSS, JavaScript, Figma
Documentation: Microsoft Office, Overleaf

SOFT SKILLS

- Cross-functional collaboration with technical and non-technical stakeholders.
- Requirements gathering and technical documentation
- Analytical thinking and problem-solving
- Time management and prioritization

COURSES & CERTIFICATES

- *AWS Certified Cloud Practitioner* - Amazon Web Services (AWS) — Issued Mar 2025 · Expires Mar 2028
- *AWS Academy Machine Learning Foundations* - Amazon Web Services (AWS)
- *Data Analysis Track: One Million Jordanian coders Initiative* - Udacity
- *Microsoft AI-901 Azure AI Fundamentals* - Microsoft
